INTER-CITY NETWORK

Listed below are localities with their corresponding Government Inter-City Network Access numbers, where applicable, followed by the appropriate Bell long distance Area Code.

To use the Ontario Government's Inter-City Network, dial the access code(s) listed for the locality you wish to reach followed by the seven-digit local telephone number. To place calls through the public long distance network, follow dialing instructions outlined in your local Bell directory.

The Inter-City Network is a voice communication service provided between Toronto and designated Ontario centres for the conduct of Government business. **The network is only to be used by the staff of Government of Ontario Ministries and approved agencies, as well as members of the Provincial Parliament.**

The probability of obtaining a line is improved if calls are placed outside the busy periods which occur between 10:00 a.m. – 12:00 Noon and 1:30 p.m. – 3:30 p.m. During these busy periods, all lines to certain centres may be momentarily busy. At such times, please hang up and dial again after a short interval. Long distance calling should only be used in cases of immediate urgency or if the called location is not accessible to the Inter-City Network.

GENERAL INFORMATION

GOVERNMENT TELEPHONE SYSTEMS

The Telecommunication Services Branch of the Ministry of Government Services provides telephone systems throughout the province for public servants to use in communicating with each other and with the public, in the conduct of Government business. At Queen's Park, both a Centrex telephone system, which facilitates direct-in-dialing, and access to an Inter-City Network for inter-city calling, are provided to serve ministries and agencies in the Toronto area. Centrex systems are also provided in Thunder Bay, London, Ottawa and Sudbury, with additional consolidated systems being planned and implemented in other major centres.

TELECOMMUNICATION SERVICES

A complete range of telecommunication services are available to all Government users. Services encompass telephone (local and inter-city), intercom systems, fixed and mobile radio systems, radio paging systems, teletype systems, data communication systems, radio systems, facsimile, video, satellite and various other special telecommunication systems. New and improved common service voice, data, teleconference, radio and other services are presently under development, and will be introduced as soon as available.

Services provided include those of both an operational and an advisory nature. Operational services include telecommunication systems design, systems/service acquisition, systems implementation, and the provision and management of common telecommunication services (Centrex services, Inter-City Network). Telecommunication advisory services include system feasibility studies, systems planning, hardware and software evaluation, project management and coordination and both the preparation of request for proposals and the evaluation of supplier proposals.

To obtain additional information or assistance regarding these services, call the Telecommunication Services Branch at 5-1414 (detailed listings on page 17).

CITIZEN'S INQUIRY BUREAU

The Citizen's Inquiry Bureau of the Ministry of Government Services assists in making the Ontario Government more responsive to requests from individual citizens who may have difficulty in obtaining government information or assistance. The bureau (416) 965-3535 supplements existing channels of communication between citizens and the government. The New Kwic Index to the Government of Ontario is a companion reference directory to the Ontario Government Telephone Directory and is available from either the Ministry of Government Services Publications Service, 5th Floor, 880 Bay Street, Toronto, M7A 1N8 or the Ontario Government Bookstore, 880 Bay Street at Grosvenor, Toronto (Price — \$2.34 + 16¢ tax.)

TELEPHONE AND DIRECTORY COORDINATORS

Each ministry or agency has designated an individual as a Telephone Coordinator. This person's principal task is to coordinate the handling of all requests for telephone and intercom services, but also includes the responsibility for supplying government and municipal directories and for updating directory and switchboard information listings.

The role of these coordinators involves liaising with the Ministry of Government Services for the provision of these services. In the event your Telephone Coordinator is unavailable, additional information or assistance may be obtained directly from the Telecommunication Services Branch at 5-1414.

ELECTRONIC COMMUNICATIONS NETWORK

This section offers you a complete listing of all Telex, TWX and telecopier (facsimil) machines presently located in the Ontario Government.

Telex and TWX are teleprinter systems which provide direct station to station communications anywhere in the world where there are compatible systems. Telecop terminals permit the transmission of hard copy communications from one location to another, at speeds varying from 20 seconds to six minutes, using ordinary telephone lines.

If you do not have an electronic communications terminal but wish to communicate with one, either in the Ontario Government or anywhere else in the world, please call Electronic Communications Office of the Ministry of Government Services at 965-034 which will be glad to send or receive your message for you.

Any ministry wishing information on acquiring this type of equipment should contact the Telecommunications Services Branch at 965-6265.

COMMERCIAL STANDARDS PROGRAM

The components of this program promote a high level of ethical business conduct by ensuring public disclosure of the essential elements of business transactions and the registration and licensing of persons dealing with the public. The various branches also conduct inspections of the financial operations of the regulated industries.
In addition, the program provides services for incorporation of companies and the administration of The Motor Vehicle Accident Claims Fund which handles claims and payments for damage done by stolen, unidentified or uninsured motor vehicles.
The Commercial Registration Appeal Tribunal is the mechanism that allows business people to appeal decisions made by the registrars of the regulated industries.

Frequently Called Numbers

[illegible]

The Government of Ontario Telephone Directory is the most useful information resource in the Ontario Government. It opens a window to the full range of Ontario Government services in a coherent and easy-to-use format.

The Ministry of Government Services is continuing to introduce improvements to the Telephone Directory, as you will see once again in this edition. For the first time, there are listings of both the given names and surnames of Ontario Government employees. Also, the alphabetical index to ministries, agencies, boards and commissions is amalgamated, and there are details concerning my ministry's new teletype/facsimile facilities and communications service for the hearing handicapped.

Government Services and the various ministry co-ordinators who assist in production of the Telephone Directory endeavour to improve its usefulness with each new edition. Further changes are planned, some of which are based upon recommendations submitted from within the Government, and by the public. We continue to welcome suggestions for improvement, and request that they be forwarded to the Telephone Directory Project Manager at 965-7135.

Please take a few minutes to become familiar with the Telephone Directory, which along with its companion guide, the KWIC Index To Your Ontario Government Services, can be used to locate services quickly and accurately. Should these sources fail you, the staff of the Citizens' Inquiry Bureau, 965-3535, will be pleased to assist.

The Honourable Douglas J. Wiseman,
Minister of Government Services
